

PARKER NAMED FOR CHAIRMAN; MR. BRYAN IS IGNORED

New Yorker Selected for Temporary Chairman of Democratic Convention

BALTIMORE, June 21—Former Judge Alton B. Parker of New York, was selected yesterday as temporary chairman of the Democratic National convention by the arrangements committee.

The choice was made against the protest of William J. Bryan, whose friends on the committee submitted the names of other candidates. Eight of the 16 votes went to the New York jurist, while Representative Henry received three votes, Senator-elect Ollie James of Kentucky, three votes, Senator Kern of Indiana, one vote, and Senator O'Gorman of New York one vote.

FIGHT EXPECTED BY BRYAN.

As the campaign managers of those seeking the presidential nomination were playing for position with respect to the nomination, the vote in opposition to Judge Parker was split up.

The committee chose Urey Woodson of Kentucky temporary secretary and John L. Martin of Missouri temporary sergeant-at-arms. The selection of the arrangements committee is in no sense final, and must be passed upon next Monday at a full meeting of the national committee. Report had it yesterday that a telegram had been sent to Chicago to W. J. Bryan asking that he come at once to Baltimore. Several national committeemen said yesterday that they expected a fight by Mr. Bryan and his friends would be made on the floor of the convention against Judge Parker.

Parker Faction Forces Fight.

The arrangements committee was in session nearly three hours. Before the meeting the Parker forces announced openly that they had the votes to elect,

and said that if Mr. Bryan desired to raise any issue it would be better to settle the question now than later. Leaders of the movements to nominate Champ Clark and Gov. Wilson decided that since an issue was raised on the question of progressivism against the so-called conservatism, they would come out for progressivism and put forward candidates against Judge Parker.

Meanwhile Charles F. Murphy, leader of Tammany hall, sent word by John M. Mason, secretary of the Democratic committee of New York, that the New York delegation was anxious to have Judge Parker chosen, as he had proved himself loyal to the Democratic party in all his campaigns.

When the committee went into session there was a general discussion over the proposition to postpone the question of the temporary chairmanship until today, and then came the first line-up of the day, with eight votes against the adjournment and seven votes for it, the Parker adherents opposing any delay.

Roosevelt Declares Birth of New Party Is Certain But Will Not Say When the Convention Will Be Called

CHICAGO, June 21—Colonel Roosevelt's political star has set for the present at least. He came here declaring that the Republican National convention would have to nominate him as its candidate for President of the United States.

The Republican National Committee told him yesterday in no unmistakable terms that it would not do any such thing. Since then such of those leaders as were not so seriously injured as he was in the fracas have been explaining to him just what happened, and just what was likely to happen. Now the Colonel has recovered his senses in a measure and has declared that he will not bolt the convention in just the way he had planned.

The fight is all out of him but he has another plan. In an interview late last night, the Colonel virtually admitted that developments of the last few hours, had put an end to his hopes for an immediate bolt, and that his fiery utterances at the caucus early this morning had not met with the enthusiastic response he had hoped for on the part of his followers.

This was after the Illinois delegation had voted, 56 to 2 against a bolt, and a resolution was passed at another caucus of the Roosevelt delegates, which the colonel addressed, to the effect that the wisest course would be to retain their seats in the convention until adjournment was taken.

PREDICTS NEW PARTY.

The delegates told the colonel that they did not want to hold a rump convention and they did not think anything would be gained by making a disturbance at the convention hall and having the police elect them.

Out of the wreck the colonel still has an idea that a new political party may arise, and that those who compose it will call upon him to lead them. He does not now demand, as he has heretofore, that the people must follow him but he says he will lead any party that calls upon him to do so.

Here is the latest utterance on that line, made in a formal interview at 7 p. m. The hour is important because he is changing his mind so often that he may take a different tack before midnight.

"There will probably be a new national convention, and we will then build up a new party. In a pretty positive speech I delivered today I said I would run if there was found to be a demand for me. I cannot say whether the action will be taken by the delegation immediately after the adjournment of the convention or not. The plans will have to be made, and it may be then or later."

So much for the downfall of the defunct Roosevelt forces and the Republican dynasty which he aspired to establish. How about the Taft situation? Roosevelt is out—all out for the present, with no chance for his coming back while present conditions continue. But will Taft get the nomination?

Must Select Somebody.

A hungry man has beef and potatoes and the other ingredients and he has a pot to cook them in and a fire to put the pot on, and if he has nothing else to eat except the ingredients of a beef stew, nobody will deny the chances are that man is going to satisfy his hunger with a beef stew. That is just the situation here.

The Republican national convention has Taft. It has nobody else in sight. It has control of the machinery to put him in nomination; it must nominate somebody; so the chances are overwhelmingly that it will nominate Taft. They asked for Taft; they fought for Taft; they won for Taft, so why believe that they are now going to switch to Hughes, to Bradley, to Cummins, to La Follette or an unknown?

There are a lot of politicians who are big men in their local state organizations, but only lantern bearers here.

A righteously aggrieved party signing himself "Public Citizen," writes an indignant and somewhat scornful letter to this column complaining that in spite of the greatly increased mail service at the Point postoffice the sum total of mail matter received by him since the change is absolutely no larger than previously. We can sympathize with "Public Citizen" in this matter, having been much annoyed in the same manner ourselves. Let us suppose that "Public Citizen" was accustomed to receiving through the office an average of one postal card and a newspaper per week. If at present, with double the number of mails arriving daily, he still is put off with the same card and paper, who can blame him for resentment and a deep seated feeling that a change of administration is a necessity? Far less serious matters have converted many a good man into a rooster for T. R.

A PERIL TO THE UNITED STATES NAVY

The action of a majority in the House of Representatives in opposing the appropriation requested for the annual increase of the United States navy by two battleships a year is perilous to the interests of the navy and therefore endangers the security of the United States, says the Scientific American. The term "strength" as applied to a navy is a purely relative one. A navy is strong or weak in direct proportion to the strength or weakness of those foreign navies which it may some day be called upon to engage. A few years ago the United States stood second in naval rank, a rating which is demanded by our wealth and population, and by the great value and far removed location of our foreign possessions. Today we are in the third position, with Germany holding a strong position as second naval power and steadily gaining upon the United States in the numbers and power of its modern fleet.

Now if the fatuous policy of obstruction followed by the majority of the House of Representatives is successful, and if it be persisted in for but a few years, the United States will inevitably drop to the fourth, if not to the fifth position. Although our present relations with Japan are amicable, we cannot shut our eyes to the fact that the opening of the Panama canal will render extremely acute all questions relating to the commercial and naval control of the Pacific; and, in any disturbances which may arise in the Pacific, Japan will be our immediate and most able competitor.

Unfortunately, the natural and very proper secrecy with which Japan carries on her plans or naval increase has deluded the people of the United States into the belief that in naval policy Japan is marking time—that the retrenchments rendered necessary by the war with Russia have prevented her from entering upon any considerable program of development. Nothing could be farther from the truth. Not only is Japan building new dreadnoughts and many of them, but her latest ships are of the largest and most efficient type. At about the same date that we launched the Texas there was launched at the Vickers yard in England, for the Japanese navy, a vessel which is 500 tons larger than the Texas, which will have a speed 5 knots greater, and will carry an armament of eight 13.5-inch guns. This year, moreover, three battle-cruisers of the same speed, size and armament are being laid down in Japanese yards.

No one is more alive to the serious significance of these facts than Mr. Meyer, the secretary of the navy. Frequently he has called public attention to the fact that if the House of Representatives has its way and we abandon our program of two ships a year Japan will soon possess a more powerful fleet of modern dreadnoughts than the United States. We commend to the serious consideration of the members of the House the article by Capt. Potts, of the Office of Intelligence of the Navy, on the subject of the rank of the United States among the naval powers, which was published in our issue of Dec. 9, 1911. In its opposition to the two-battleship program, the House is getting out of touch with the feeling and wishes of the country. Of this there is every evidence in the correspondence which reaches this journal from all sections of the United States.

DECISIONS BY JUDGE PIKE

Decisions handed down by Judge Robert C. Pike of the Superior court which were tried at the April term are: In the case of Benjamin T. Bartlett vs. Anna Gilchrist, which was a petition for partition, the verdict was for the plaintiff. In the case of the Perry National bank vs. Adams and Tracy, trustees, which is an action on a debt of judgment, the verdict was for the plaintiff. In the case of John Sheu vs. Kriker der Krikorian, Krikorian and Alexander Pawelozik, the verdict was for the defendant. The case of Walter P. Carter vs. Charles M. Beardsley and Stella Beardsley was 175 for the plaintiff. The case of Everett E. Griffin vs. Joseph Desmarais was for the defendant, and the case of Benjamin T. Bartlett vs. Carrie M. Blake was for the plaintiff. Most of these cases were heard at Derry this week.

THERE'S nothing so satisfying in summer as Clicquot Club Ginger Ale, especially when one is heated. Its delicate, thirst-quenching taste (without the throat-burning qualities of other ginger ales) and its purity and wholesomeness make it popular with both men and women. It mildly stimulates, leaving one refreshed and satisfied.

Clicquot Club GINGER ALE

Only the best ingredients go into Clicquot Club—the best extra grade of granulated cane sugar, choice ginger root—the oils of select lemons and lemons. The water—crystal-clear and pure, from the deep Clicquot Springs—is noted for its fine carbonating quality. "Clicquot Club Ginger Ale" is as good as ginger ale can be. There are no preservatives or chemical preparations used in it.

The P. C. U. defeated the Riversides in a hot game at the play grounds on Thursday evening. Both pitchers were hit freely, and the Riversides got to Kabalka and pounded him at will, but he had great support, and several times players were caught off bases. Able also got good support from some section although Paul was badly off his game and had three errors to his credit. Hutton was also inclined to be off, but Caswell at third played a very snappy game, after making one error. He came in fast on several bad grounders and got his man. For the winning team Hughes at short and Hoffman at second did fine work while Morris at third made several good stops.

C. D. Howard umpired on bases and he did the best job that has been done so far in that department.

The game in detail:

First Inning.

The Riversides started the game with Caswell being safe when Morris fumbled his grounder. Grant also reached first on Hoffman's error and Pruett sacrificed down the first base line and he was touched by Kabalka. Caswell and Hutton followed with a single. Paul fanned and Philbin was out Kabalka to Kincaid.

The P. C. U. tacked on three runs

in their inning. Walter Lynskey singled but he was thrown out trying to go to second with the ball in Able's hands. Kabalka singled and Kincaid followed with a single and Caswell's bad throw of Hoffman's grounder resulted in Kabalka scoring. Fredericks drew a pass and Hughes singled and Kincaid and Hoffman scored, and Fredericks trying to do the same was thrown out at the plate. Tom Lynskey was safe on Farnsworth's error and Morris was safe at first when Ned Paul dropped a pretty throw and Hughes scored. Lynskey was caught between second and third and tagged by Caswell.

Score—P. C. U., 4; Riversides, 2.

Second Inning.

The Kittery team took the lead in this inning. Farnsworth was hit and walked, and he was safe at second on Fredericks' wild heave. Plumptre was tagged by Kabalka and Caswell singled, scoring Farnsworth, and he scored on Grant's two-base hit, which he went to third on the throw in. Pruett singled scoring Grant and Able struck out. Hutton singled but he was forced at second Hughes to Hoffman.

The P. C. U. failed to score. Thomas fanned, W. Lynskey was out Caswell to Paul and Kabalka fanned.

Score—Riverside, 5; P. C. U., 4.

Third Inning.

The Kittery team failed to score, as Philbin after singling was doubled on Farnsworth's fly to Morris. Plumptre drew a pass but Caswell fanned. The Catholic Union tied the score. Kincaid struck out, Hoffman droye a long ball into right field that was good for three bases and he went home on Fredericks' grounder to Caswell, who threw well to the plate but Pruett was slow. Fredericks was thrown out trying to steal second and Hughes was safe on Paul dropping another throw. T. Lynskey was out on a fly to Grant.

Score—P. C. U., 5; Riversides, 5.
Fourth Inning.

Neither side scored although the Riversides had a try. Grant singled and he was advanced to second on Pruett's single, but he was caught off the bag by Hoffman. Able hit a grounder to Hughes who forced Pruett at second, and Hutton hit to Morris and Able was forced at second.

Morris started with a single and he was advanced by Thomas sacrifice to Caswell. Lynskey shot out at Hutton and Morris was forced, and Kabalka retired the side Caswell to Paul.

Fifth Inning.

Paul was safe when Philbin dropped his fly to center, but the next three men were retired in order. Paul to Kincaid unassisted, Farnsworth on a fly to Kincaid and Plumptre on a foul fly to Morris.

The P. C. U. got the winning run on errors. Kincaid was safe when Hutton made a mess of his grounder, he was safe on second when Farnsworth dropped Pruett's throw. Hoffman hit one at Caswell, who came in hard and threw to Paul but Hoffman beat it out. Caswell was well in and Kincaid went to third, Caswell getting back in time to get Paul's throw and he came near getting Kincaid at third. Hoffman started for second and Able threw to Paul and Paul started for Hoffman who was struck by the ball and Kincaid scored ending the game.

Keen Interest Being Taken in
Running High Jump at the Olympiad

New York, June 21.—Much interest is centered in the running high jump event at the Olympic games. No foreigner seems to have the slightest chance to win this contest, as the United States is so strongly represented. Still, the winner does not stand out. Up until a short time ago George Horine, the Californian, was picked to win the event with ease. But of late several other stars have popped up. Among them are Egon Erickson and the Indian Jim Thorpe.

REOPEN INQUIRY IN
KNABE DEATH.

Grand Jury Calls Before It at Indianapolis Persons Who Knew Woman Physician.

INDIANAPOLIS, Ind., June 20.—Reopening the investigation of the death of Dr. Helene Knabe, who was found in her apartment Oct. 24, 1911,

with her throat cut, the grand jury called before it Dr. Ernest Lawler, assistant to Dr. W. B. Craig, a veterinarian; Miss Anna Bush, Dr. Craig's bookkeeper, and Mrs. Lydia Tennant, his housekeeper. Dr. Craig is dean of a veterinary college with which Dr. Knabe was connected as lecturer on bacteriology. Witnesses examined at the grand jury's previous inquiry into the case are to reappear it was said, but whether or not Dr. Craig would be summoned was not announced. Dr. Craig said he would gladly give the grand jury any information he had about Dr. Knabe.

"We were very good friends," he said, "and I admired Dr. Knabe greatly as a scientist. During the last few months of her life Dr. Knabe was in financial straits and I loaned her small sums of money. I know she was depressed and I firmly believe she committed suicide. On the night of Dr. Knabe's death I attended a

DOES YOUR SKIN BURN? IS IT
INFLAMED OR IRRITATED?

A simple application of the new remedy Cadum will stop the burning and itching and prevent infection from disease germs. Cadum is an antiseptic that is wonderfully soothing and healing to an inflamed, irritated or broken skin, and can be used with confidence for skin and scalp troubles of adults and infants. A small cut, scratch, sore or wound is a nesting-place for disease germs. Cadum should be in every home for immediate use in all such emergencies, and for prompt application in skin troubles. It has proved a blessing to many who have suffered for years from tormenting and disfiguring skin diseases. Cadum acts quickly upon eczema, pimples, blotches, rashes, eruptions, sores, rough skin, chafings, itching piles. Of all druggists, 10c. & 15c.

meeting of the students of the college. I will welcome a thorough investigation of my association with Dr. Knabe."

The information upon which the grand jury renewed the investigation was presented by Harry Webster, a private detective, employed by the Local Council of Women, of which Dr. Knabe was a member. A reward of \$3000 is offered by the organization for the arrest and conviction of the physician's slayer.

The local branch of the Chaffeurs Federation of America will hold a meeting in U. V. U. hall on Monday evening at 8 o'clock. All members are requested to be present.

For PORTSMOUTH and PORTSMOUTH'S INTERESTS

Friday, June 21, 1912.

The "Hello girls" are pleased over the announcement that the New England Telephone & Telegraph company will put the eight-hour day into effect not later than January 1 and that stricter enforcement of the rules for the benefit of employees is to be insisted upon. Among other things the right of appeal for an aggrieved employee is opened, even to the president.

A telephone strike would have been a serious annoyance to the business section of the community, but it would also have affected a great many homes. It is said that no strike was imminent, but in any event, the present adjustment has been wisely decided upon. The promised changes are made as the result of investigation by the corporation, and it is unfortunate that all differences in the industrial world cannot be as easily and quickly adjusted.—Boston Globe.

While it would have been a great annoyance to business and professional people, just think of all the news the eavesdroppers on the ten-party line would miss in the run of a day.

The Detroit Free Press says that law is commendable that will help to lessen the ease of purchasing deadly weapons, especially the useless and dangerous pistol. The figure set in the pending bill at Washington is high enough to discourage traffic in the cheap revolver at least, and this infernal instrument is the most noxious implement of mischief and peril in present society. Nobody needs it, except the police, and ninety-nine times out of 100 they would have no use for it if the criminals did not carry it. The revolver, especially the cheap revolver, offers a ready means to many murderers and suicides that would never be thought of if the agency for accomplishing them were not so easily acquired.

The New York World says that he boasted that it was Armageddon, but it looks more like Waterloo. He proclaimed that "we battle for the Lord," but a majority of the delegates have recorded the opinion that he was merely battling for himself. On the test vote that he forced upon the convention Mr. Roosevelt was decisively beaten. Elba Root was elected temporary chairman by a majority of the whole number of delegates in spite of Mr. Roosevelt's successful attempt to combine the Taft opposition by throwing over Senator Borah at the last minute and taking up La Follette's governor. The Republican party is now in control of its own convention, regardless of Mr. Roosevelt's bullying and bulldozing and threats and abuse and intimidation. If the anti-Roosevelt leaders have the courage and wit and skill to hold what they have won they can renominate Mr. Taft for President. At least they can block the nomination of Mr. Roosevelt. They have the votes; they have taken the measure of the opposition, and they know precisely what they have to deal with.

Bird's-Eye Views.

Anyway Mr. Lorimer does not have to write out an item and send it to

the paper when he desires to appear in the personal column.

Taft is still rooted in his determination to hold the chairmanship of the Republican national convention.

In addition to being a convention, the assemblage at Chicago appears to be somewhat in the nature of a detectives' reunion.

As Gen. Almsworth interprets the ancient proverb, it is a long war-path that has no turning.

In all this political turmoil the dove of peace is fast asleep on the perch.

At all events, the Roosevelt men got in the first grand cry.

A London paper says English innkeepers do not like Americans. There are plenty of indications that they like American money.

Some time ago, when the vogue for African hunting was at its height, the cry "Tell it to Roosevelt" was raised. There was no perceptible result from the call. If there is anything to tell, Roosevelt will tell it himself.

CURRENT OPINION

BY MRS. OLIVER H. P. BELMONT, Woman Suffragist of New York.

Why Women Ask the Right To Vote.

WOMEN do not need the right to vote as much as the state needs the votes of women.

And, again, I say that when the women vote the BOSS WILL LOSE his power, and the ballot box will reflect the best sentiment of the community, and LEGISLATORS WILL ENACT LAWS OF MAXIMUM VALUE TO THE STATE.

Men vote because it is their PRIVILEGE. A small percentage of every community votes because it is interested in the cash book and ledger of politics. Few vote because they are INTERESTED IN LAWS TO BE ENACTED. The great majority of both parties vote merely because an implied civic obligation is discharged, and the burden of the outcome is shifted to the political party the voter chooses to support. NO MORAL OBLIGATION FOR THE BALLOT CAST IS ASSUMED BY THE VOTER.

Election day is a holiday, with half an hour in the morning at the ballot box and the whole evening shouting over the returns. Can any fair minded man assert that the whole duty of a male citizen as an elector is HONESTLY, PROPERLY AND FULLY DISCHARGED? If so, how is it that bosses rule conventions and control with iron hands the paid legislators in the people's temple of law-making?

Women want the right to vote. They do not wish to share with the male elector his participation of his rights as he now enjoys them. They have no desire to swell such a procession.

Women want the right to vote. To ballot give life and substance to principles which are now crushed, and spurned, unheeded by the bosses—principles that will help the weak, curb the strong and be helpful to the struggling masses of the state and nation.

Representatives of candidates at Chicago may find it desirable to quarrel among themselves when there is nothing else to do, for the sake of keeping in practice.

Chicago and Baltimore are pronounced the hottest days in their history this month. Anyway, both factions agree that the Russian government should stop killing off the Jews.

At last accounts the dove of peace was seen near New Zealand, the exact antipodes of Chicago.

The gavel for the national convention this year should be built out of extra durable material.

The dark horse has some chances. Read the Want Ads. on Page 7.

Theodore Roosevelt and Senator Joseph M. Dixon, Manager of His Campaign For the Nomination.

The chief factor in the movement to obtain the Republican presidential nomination for Colonel Roosevelt has been Senator Joseph M. Dixon of Montana. Four years ago Senator Dixon conducted the western speakers' bureau for President Taft. He is a native of North Carolina, is smooth shaven and dark, impressive and earnest and, needless to add, is widely acquainted and well informed.

The Ship of State.

The men who stoutly trained her Were giants in their day. They launched her and they named her The "Glorious U. S. A." And every tribe and nation Beheld her flag unfurled, The hope of all creation The pride of all the world.

Her course was swift and easy, With skill she was controlled. She sailed o'er waters breezy. That sunshine turned to gold. And since the wind and weather No tumult would afford, The whole crew got together And had a storm on board.

For speed she was a thriller, And each among the crew Desired to grab the tiller. "Neath skies serene and blue, There's naught that e'er could tip 'er Save such contention great. Now, who shall be the skipper And who shall be the mate?" —BX.

CONCORD SUNSET LEAGUE REPORT

Not So Well Off Financially as the Portsmouth League.

The officials of the Concord Sunset league made the announcement Thursday that the total of the money collected up to June 14 was \$144.29, and the total expenditures (which include all of last year's bills, and all bills of this year so far received, amount to \$50.07, which leaves a balance in the treasury of \$94.22. Including this balance with the collections since taken, the league has now just about enough money to make all debts square.

RAILROAD NOTES

An extra freight is to run daily to York Beach and back doing the required shifting along the line. This takes the freight work off the passenger train crew, who found that they could not make the scheduled time and do the combined passenger and freight work.

The Boston & Maine road has notified its employees that the annual inspection of winter uniforms and the taking of measurements for new ones will commence on July 8, and continue through July 17. Free uniforms will be provided for steam and electric conductors, motormen, and gatemen, baggage men and other Union station employees, as usual.

The hearing in the Sullivan railroad case goes on before the public service commission today at Concord and it is expected that President Fitzhugh of the Central Vermont road will be among the witnesses to testify as to the question of public good.

FIRE ON NOBLES ISLAND

Spark from Locomotive Starts Lively Blaze Among Old Ties.

The engineer of a work train on its way to York Beach this forenoon discovered quite a lively blaze in some old ties close to the stables of the Standard Oil Company on Noble's island. He gave an alarm from the locomotive whistle and the crew on the work train were soon battling the flames. A still alarm reached the chemical engine house and the engine and crew were soon at the scene when it required a half-hour or more to extinguish the flames, thought to have been started by a spark from a locomotive. The blaze being so near the stables and oil storage tanks it required quick work on the part of the railroad men and chemical crew.

SOMERSWORTH WINS

Defeats Rochester in Interscholastic League Fight For Pennant.

The Somersworth and Rochester high schools, which were tied for the baseball pennant in the Southeastern New Hampshire interscholastic league, decided the tie Thursday afternoon at Central park before a large crowd. Somersworth was a bit steadier and won, 7 to 6. Moran neither gave a pass nor fanned a man.

GALLINGER RESOLUTION

Introduced in Connection With Civil Service Law.

The civil service law is now under much discussion in congress and Senator Gallinger has introduced the following resolution, which has been unanimously agreed to:

"Resolved: That the civil service commission is hereby directed to communicate to the senate the number of persons which the state of New Hampshire is entitled to under the apportionment provision of the civil service law; also the number now actually in the public service from that state; their names, the date of appointment in each case and the town or city from which such appointment was made."

Sweeping changes have been suggested in the law, among them one limiting the term of office held under civil service appointment to five years, instead of the indefinite tenure which now lasts during efficiency.

PIG IN THE POND

Takes Swimming Cruise and Fights When Rescued.

Who said that a pig cannot swim? After what took place in the North pond Thursday you cannot make a resident of Clinton street believe anything of the kind.

Some boys playing on that street were responsible for a lot of pigs getting loose from a pen and one of the porkers in his rampage fell into the water of the pond.

People on the shore said good-bye to his pigship, but they got fooled. This was a deep water pig and he put off on a swimming cruise of the pond. He headed for the Maplewood avenue bridge and was making great headway much to the surprise of the people on shore waiting for him to sink.

As he swam past the round-house one workman, a boiler maker named Galloway, got his eye on the fleeing swine and put off in a boat to the rescue.

The nearer the boat came to the porker the faster he swam and it was some time before the boilermaker could get close to the pig. He finally got near enough to grasp his hide and then there was more trouble.

The pig could be heard screaming for a half mile and you can bet that Galloway's life saving act was all that he cares for in one day.

The kids on the bank gave the boilermaker a cheer as he dragged the 100 pound porker over the side into the boat.

The Dover Garage, F. S. Bradley proprietor, has several good used cars at very low prices.

SALDEN—LONDON

Alice Salden, son of Mrs. Tilla Salden, and proprietor of the Portsmouth White store, and Bessie London, daughter of Mr. and Mrs. Zelig London of Exeter, were married Wednesday night in the Ocean Spray hotel at Wintthrop, Mass., by Rabbi Fisher of Boston. The couple was attended by Morris Salden, brother of the groom, and Miss Bessie Koughlin.

ARTICLES OF INCORPORATION

Arrangements were made at a meeting for the incorporating of the company to hold the portion of the

Portsmouth and Exeter street railway between this city and Greenland. The corporation will be capitalized for \$10,000, and while there is some indecision as to the name, it will probably be known as the Portsmouth and Greenland Electric Railway company. The meeting was in the office of President William E. Marvin of the Portsmouth Board of Trade and Merchants' Exchange, who contributed his legal service.

Dr. and Mrs. Byron F. Staples with Mrs. Charles Lovell and Mrs. Robert Rowe, are on an automobile trip to The Weirs, where they will attend the dentist convention.

POLICE CLEAR UP BREAKS

Two of a Gang Arrested For Robbery of Railroad Stations.

The police of Boston think they have cleared up the mystery surrounding the several breaks and robberies of the Boston & Maine railroad stations at North Hampton, Kittery, Newmarket, Durham, Kennebunk, Madbury and other places in the arrest of Francis J. Kane, a shoe maker of South Brewster, Me., and Walter Grant, alias Walter Graham of Haverhill, Mass. They were captured by Inspector Patterson in the South End in Boston on Thursday. The two men, supposed to be members of a gang of hoboes who have broken into about 50 railroad stations, residences and express offices throughout the New England states and Canada.

An estimate of the loss sustained by the reported breaks amounts to about \$5000. The alleged stolen property belongs principally to the Boston & Maine railroad.

THE WOMEN SUFFRAGE AMENDMENT DEFEATED

Constitutional Convention Refuses to Allow It to Go to the People-- Tax Question Again Up.

CONCORD, June 20.—The woman suffrage amendment was defeated in the constitutional convention today by a vote of 298 to 149 in a roll-call. The amendment was reported by a special committee yesterday, with 12 members declaring it inexpedient and eight favoring it. The question today was on the substitution of the minority report.

By agreement of the convention debate was limited, as it was ordered that the vote should be taken at 12 o'clock. The debate began at 10:43. Those favoring woman suffrage were Whitaker of Haverhill, Bean of Portsmouth, Lyford of Concord, Young of Charlestown, Stevens of Landaff and Watson of Nashua. Those speaking in opposition were Duncan of Newbury, Judge Mitchell of Concord, the Rev. Howard F. Hill of Concord, Editor Barney of Concord and ex-Mayor Martin of Concord.

The gallery was filled with women spectators, who vigorously applauded the speakers on their side until President Jones warned them that the

sergeant-at-arms would be sent to the gallery to maintain order if

The Applause Was Not Stopped.

Mr. Whitaker in leading for the bill spoke of the growth of sentiment for woman suffrage, and declared it time to submit the question to the people once more. He said if there had been more women at Chicago this week the nation would not have witnessed the disgraceful scenes that have occurred there.

Mr. Duncan spoke of the splendor showing made by the women opposed to woman suffrage, and declared that 90 per cent of the women of the state were against the measure.

Judge Mitchell said it would be time to grant suffrage when a majority of the women asked for it. The Rev. Mr. Hill said the constitution might as well be thrown on the dump as to admit 80,000 raw voters. Mr. Young said that the women who appeared in favor of the bill were all introduced as Mrs., and the splinters were on the other side, and he believed they would vote if they had a

chance. Editor Barney replied to

The Claim That Women

would not have to vote if they did not want to. He said if your opponent brings his wife and daughter to the polls, you will bring your own wife and daughter there, too, if you have to drag them by the hair.

Following the defeat of the minority report and the roll-call the majority report was adopted by acclamation and the proposed amendment is killed.

The committee on legislative department reported a new amendment to article 5, part 2, relating to taxation. It is strictly in accordance with the directions voted by the convention last week, allowing special assessment of growing wood and lumber, money at interest, savings bank deposits and a graduated income tax. The amendment will be the special order for debate this afternoon.

The Uppike amendment, requiring six months' residence to qualify to vote was voted inexpedient, as the subject matter is already covered by law.

The committee on bill of rights reported the resolution 45 in a new draft. This would amend article 11 of

The Bill of Rights

so that persons convicted of treason, bribery and willful violation of the election laws be disfranchised. In the amended draft the supreme court is given the power to restore the rights of citizenship.

This same committee has voted to report the pension amendment as inexpedient although a number of the members of the committee favor the proposition. The constitution now limits the time for granting policemen's and firemen's pensions to one year at a time, and this amendment would permit laws granting pensions for a longer period. It is a measure in which firemen and police through out the state are interested and a warm contest is expected on the floor.

The conservatives are rejoicing over the defeat of the second attempt to secure the initiative and referendum yesterday when the Cummings measure was defeated 227 to 133. Last week the measure came within 20 votes of adoption.

EMPLOYMENT OF CHILDREN.

Child Labor Law, Section 7.

"No child under sixteen years of age shall be employed, or permitted or suffered to work in, about, or in connection with, any place or establishment named in section 1, unless the person, firm, or corporation employing such child, procures and keeps on file, and accessible to any truant officer, or other authorized inspector, an employment certificate as hereinafter prescribed." Section 1 reads, "No child under the age of twelve shall be employed or permitted or suffered to work, in, about or in connection with, any mill, factory, workshop, quarry, mercantile establishment, tenement house, manufactory or workshop, store, business office, telegraph or telephone office, restaurant, bakery, hotel, barber-shop, apartment house, bootblack stand or parlor, or in the distribution or transmission of merchandise or messages; nor shall any child under the age of fourteen be employed, or permitted or suffered to work, in any of the aforesaid while the public schools are in session in the district in which he resides."

The certificate mentioned in Section 7 is issued to children over fourteen years of age who shall have presented to the Superintendent of Schools proof of age, proof of school

CONVENTION MARKING TIME WHILE LEADERS ARE IN CONFERENCE

Credential Committee Holding Back Report Until Today--Compromise Candidate Gaining Strength.

Exactly four minutes (12:02 to 12:06 p. m.) was the duration of the opening session of the third day's session of the Republican National Convention.

The immense crowd, nearly 14,000 people, who had fought their way into the hall after an hour or more in line had only to go out again. The only business done was the prayer and the motion of Watson of Indiana to be in recess until 4 p. m. The ostensible reason for the recess was the fact that the credential committee at work upon the contests affecting the personnel of the convention had only fairly begun its work.

When the convention took its recess the report was everywhere variant about the Coliseum that Colonel Roosevelt would come to the convention at four o'clock and make, or try to make, a speech. Nobody really knew whether it was true or not, but

attendance and proof of physical ability to do the work for which the certificate is issued. During the vacation time of the public schools a certificate, good only during the vacation, is issued to any child over twelve years of age upon presentation of proof of age only.

Children with either of the above certificates may be employed subject to such restrictions as are otherwise made in the Child Labor Act.

THEATRICAL TOPICS

When Captain Rostrom, the gallant commander of the Carpathia, was in New York last week and was being generally lionized for his very exceptional services in rescuing the survivors of the Titanic disaster, the greatest of all the receptions he received was at the Winter Garden. He attended the performance there one night, and when the audience recognized him there was such cheering and applause that he finally broke all his rules and made his only public speech, thanking all Americans for their good-will. On the day that he called two of the girls from the Winter Garden presented the Captain with a black cat to keep aboard the Carpathia for good luck.

it added to the excitement. Hundreds of people settled down to wait in the hall until 4 p. m.

The only welcoming applause this morning was for William Jennings Bryan, who is reporting the convention for a number of newspapers. As Mr. Bryan moved to his seat in the press section of the platform, several persons in the gallery cried, "Speech, speech!" Mr. Bryan smiled. After the noon adjournment, Mr. Bryan held an informal reception over the rail of the press section.

The convention reconvened at 4:06 Thursday afternoon, and Mr. Watson of Indiana, the Taft floor manager, immediately stated that the credential committee were not ready to report, and on his motion the convention adjourned until 11 o'clock Friday, after being in session just one minute.

COMMENCEMENT BALL OF GRADUATION CLASS FINE AFFAIR

The annual Commencement ball of the graduation class of the High school was held in Peirce hall on Thursday evening and it was one of the prettiest and most successful parties ever given by any class. There was not the usual great crowd, and the affair was much better for this reason. The number of tickets had been reduced from 1200 to 800 and this confined it to the graduates and their friends.

The hall looked handsome with the decorations. The class colors, green and gold, were everywhere present, draped in graceful festoons from the ceiling, and running around the arcade of the galleries and the side walls. Across the front of the orchestra stand were folds of the same colored cloth and over the orchestra the motto of the class in gold letters on a green ground, "Potes Si Via." The decorations were under the direction of Mr. Arthur B. Richardson, and they were very beautiful.

A very striking and sensible innovation of the class was the appearance of the boys of the class in outing suits, blue serge coats and white flannel trousers and they looked cool and comfortable. The young ladies appeared in their handsome white graduation dresses and the whole party was very dressy.

While the people were gathering the Premier Seale Temple orchestra, augmented by other musicians, rendered a very fine concert and they also played for the dancing very successfully.

The grand march was led by President Bailey Emery and Miss Elsie Hodgdon, the vice president, followed by the members of the class and about a hundred couples. At the conclusion of the grand march the class and guests were received by the

MEN WANTED

On Friday, June 7th, a number of employees of the Boston Elevated Railway Company left their positions without notice and went on a strike which now exists. These represented almost entirely the newer, younger, more inexperienced men. A large majority of the men, including nearly all of the older, responsible men, remained with the Company and have faithfully served it in operating its car service, which has been well maintained over its entire system.

The Company wants at once suitable experienced Motormen and Conductors to fill the places of men who have left the service, and offers attractive, permanent employment not only to these but to other worthy persons who can qualify.

For full information write or apply to Superintendent of Employment, 153 Milk Street, Boston, Mass.

MANCHESTER MINISTER IN AUTO WRECK

LOWELL, June 20.—Rev. Dr. Chalmers of Manchester, N. H., was thrown from an automobile on Pawtucketville boulevard this morning, and he is in an unconscious condition in the Lowell General Hospital. Mrs. Jennie M. Fontaine of Manchester and her infant son were also thrown from the automobile and injured, and were removed to the Lowell General Hospital. Their condition is not serious.

The injured persons are not able to tell how the accident occurred. It was reported in Pawtucketville that they were on their way to Boston and were going at moderate speed when the overturn took place on the boulevard at a spot between the pumping station and the windmill.

One of the wheels gave way, it is reported, and this caused too much of a strain on the second hind wheel, which also gave way, throwing the occupants of the automobile into the roadway.

Another report is that when one of the hind wheels gave way, Rev. Mr. Chalmers applied the brake so vigorously that the machine was overturned and wrecked.

The municipal ambulance was summoned soon after the accident, and the injured persons removed to the hospital. Manchester relatives of the injured persons were notified by telephone. Rev. Dr. Chalmers was on his way to Boston to meet Mrs. Chalmers, it is said.

Orders left at residence, corner of Richards avenue and South street, or by mail with Oliver W. Ham, 64 Market street, will be given prompt attention.

Harry H. Frazee and Walker Whiteside Now Shubert Allies

The Messrs. Shubert take pleasure in announcing that Harry H. Frazee and Walker Whiteside have joined the list of their managerial allies and will book their productions for next season in Shubert theatres and through the Shubert offices. Mr. Frazee has at present under his management, "Ready Money," which is generally acknowledged to be the best comedy of the season offered in Chicago. He is soon to have a New York theatre of his own in West 43rd street and is actively preparing to make a number of other dramatic and musical productions. Mr. Walker Whiteside has just closed a very successful New York season under his own management in "The Typhoon." Mr. Whiteside has already made all his bookings through the Shubert offices to present the same notable drama on tour.

Announcement of other new added Shubert allies will be made in the near future.

The Messrs. Shubert to Present "The Master of the House."

The Messrs. Shubert announce that their first dramatic production for next season, opening at one of their New York theatres on August 19 will be "The Master of the House," a new play by Edgar James. The cast will include: Florence Reed, Helen Rein, Grace Reals, Mary Servoss, Eve Randolph, Ella Rock, Malcolm Williams, Forrest Robinson, Ralph Morgan, Pedro, De Cordova, Frederick Esmeilton and Lawrence Eyre.

of "A Butterfly on the Wheel," which is still continuing its engagement at the 39th Street Theatre, are going to make a special trip to the Court House Wednesday morning to see the actual divorce procedure according to American law practice. The undetected divorce cases, usually thirty or forty in number, are on the calendar for that date and therefore the actors and actresses will have an excellent opportunity to observe a large variety of types and hear many kinds of stories. "A Butterfly on the Wheel" is a divorce drama of English society life and depicts an actual trial in a British court.

James T. Powers and "Two Little Brides" now at the Lyric Theatre

"Two Little Brides," with James T. Powers as the star, has been transferred from the Casino Theatre, where the star revival of "The Pirates of Penzance" is now the attraction, to the Lyric Theatre, where it will continue indefinitely into the warm weather. Several new numbers and novel specialties have been added to the piece which is now unquestionably one of the most amusing and attractive vehicles which Mr. Powers has ever been provided with under the Shubert management.

The role of the Corsican man in "Two Little Brides," the new musical vehicle in which James T. Powers is appearing at the Lyric Theatre under the management of the Messrs. Shubert, is played by a young actor named Louis London. This actor is one-half pure American Indian, and Powers says that this fact sometimes makes him nervous in the comedy stalling scene. If the Indian blood all happened to come to the surface of London's nature some night, "Jimmy" thinks that he might really find a knife in his anatomy.

A new and very unique number has been introduced into "Two Little Brides," now running at the Lyric with "Jimmy" Powers as the star. It is entitled "Some Time, Some Place, Somewhere." Both the words and music are by Louis A. Hirsch, who has become famous this year, as the composer of "The Gaby Glide" and "My Summer Girl." This is the first time that Mr. Hirsch has ever supplied one of his own lyrics.

George MacFarlane, whose later pretation of the role of "Major-General Stanley" is one of the main personal hits of the Shubert-Brady star revival of "The Pirates of Penzance" now running at the Casino, is a Canadian by birth. It is interesting to note that his very first professional experience was in a performance of Gilbert and Sullivan's "Pinafore," given by a small traveling repertoire opera company.

Ergene Cowes, formerly of the Bostonians and one of the most noted "basses on the light opera stage in this country, has a role just suited to him in the part of the Pirate King, which he plays in the star revival of "The Pirates of Penzance" at the Casino Theatre. Though Mr. Cowes has been a light opera favorite for so many years his first and only Gilbert & Sullivan experiences have been with three of the Shubert-Brady revivals—"Pinafore," "Patience," and "The Pirates." He says now that he would be more than contented to do nothing but Gilbertian roles for the rest of his stage career.

Great preparations are already being made for the road companies that are to present the famous Scotch comedy, "Banty Pulls the Strings," on tour next season. The original production, now still running in New

York at Wm. Collier's Comedy Theatre, is nearing its 25th performance and will doubtless attain its 30th presentation before it leaves the metropolis.

"Within the Law," by Bayard Veiller, is to be the opening attraction at the new Eltinge Theatre in West 42nd St., New York City, about the first of next September. This piece was originally produced at the Princess Theatre, Chicago, by Wm. A. Brady, and is still running there. The Western company of "Within the Law," which is to go to the Pacific Coast, has already been booked in Shubert and Cort Theatres, and the company which is to be seen at the Eltinge Theatre has also been booked in Shubert theatres after it leaves the metropolis.

Though "Whirl of Society," the present attraction at the Winter Garden, continues to draw large audiences nine times per week, preparations are already under way for the new entertainment which will open at the beginning of the autumn season. Among those already engaged are Mlle. Dook, who is now abroad, and Adelaide and Hughes.

LITERARY NOTES

The July Woman's Home Companion.

An interesting feature of the July Woman's Home Companion is an article entitled "The Paul Penn" by Mary Heaton Vorse, in which the author reports many startling facts about the dangers that children undergo who buy cheap candy, cheap tea cream, and other impure sweets sold to youngsters for one cent.

In the same number appears the letters descriptive of vacations which won prizes in the "Real Vacation" contest.

Other interesting contributions to the July Companion are: "The Spiritual Message of Nature," a sermon by Dr. Charles E. Jefferson of Broadway Tabernacle; "The Friendly Summer Trees" by Frank A. Waugh of the Massachusetts Agricultural College; "Tempest Hot-Weather Dishes" by Fannie Merritt Farmer; "Summer Time Books" by Jeanette L. Gilder, and a number of valuable articles in the regular Household, Fashion, Home Decoration and other departments.

The principal contributors of fiction are: Kathleen Norris, Eleanor H. Porter, Frederick M. Smith, Mary Erbert Puiver and Mary Heaton Vorse.

Aeronautical Engineers Want a Name.

Some of the men who are attempting to solve the mysteries of the air are much exercised over finding a title by which their particular calling shall be known. There are all sorts of technical names for other kinds of engineers, but none has yet been developed for the man who deals with aeronautics.

There have been numerous discussions of the subject and the choice now appears to lie between "aeronautical" and "aeronician." "Aeronautical" has also been suggested, and meets with favor when applied to the purely technical man. "Airmen" still seems to be more popular for the man who actually runs a machine than "aviator," the first term employed. "Flight engineer" has the merit of being plain English, though it is scarcely as brief as might be desirable. From the July Popular Mechanics Magazine.

RECOVERY DOUBTFUL

George Caswell Still In a
Serious Condition.

For more than a month George Caswell, the Plaistow, N. H. murderer, has lain on a cot at the Rockingham County farm at Brentwood. His condition remains practically unchanged, except that he is perhaps weaker than he has been during the past two weeks. He takes but little nourishment and the physicians are unable to state that he will recover from the injuries which he inflicted upon himself after murdering his wife Laversa at Plaistow, Saturday night, May 11.

Caswell is a prisoner but he has never been arraigned in court on the charge of murder which County Solicitor Captill has preferred against him and it is possible that he never will be as his recovery is doubtful. On the morning after the murder and while Caswell lay in a heap on the floor of the kitchen in his murdered wife's sister's home the officers arrested him. A doctor looked him over and decided that he was in a safe condition to be removed to the hospital and the trip over the road was taken in an automobile. As quickly as Caswell was received at the hospital he was undressed and assigned to a cot, under guard, and there he has been ever since, the guard an almost useless precaution for the prisoner is hardly strong enough to lift his head from the pillow. He is without friends and during the

time that he has been confined no one with interest in his welfare has been to see him. No lawyer has been procured to defend him when he is taken into court and no friends have inquired as to his welfare. Deputy Sheriff Shaw of this city, who has charge of the case has been in constant communication with the county farm, ready to arrange for a sitting of the court at any time that Caswell is able to be taken into one, but that time is indefinite because there is more reason to think that the man will die in the hospital than that he will ever live to face trial for wife-murder.

PEOPLE'S OPINIONS

Wants the Other Band
Mr. Editor:—
Why give one band a monopoly of the Saturday night concerts. Why not alternate with the Eureka Troupe and Drum Corps. Many of our citizens like the late up-to-date music as rendered by the high quality of musicians that compose the drum corps. They should be encouraged. No city in New England has anything on our boys—and we should show some appreciation of their qualities. Give the boys a chance.

Premier Scenic Temple Programme

The program selected for Friday and Saturday includes the following features:
"Western Hearts," S-and-A—A splendid example of the entirely different western drama; a tale of the plains that grips and enthralls a superior production, strikingly portrayed.
"The Fighting Dervishes of the Desert" A strong spectacular production in which we see the real life of the Great Desert produced by the Kalem company in Egypt; an excellent feature.
Song—"You'll Never Know the Good Fellow I've Been," Rossiter—Miss Evelyn Francœur.
"The Honeymooners," Lubin—An original and delightful comedy full of amusing situations. A riot of laughter; featuring Miss May Buckley.
"The Angel and the Stranded Troupe" This is a comedy composed of character work each individual bit being a gem. A most pleasing comedy portrayed by the Edison company.
Song—"Let Me Call You Sweetheart" Miss Evelyn Francœur.
"A Romance of the Border" Lubin is a Mexican story of excellent quality.
Special Notice
Westly Norris, one of New England's most famous character singers, will render the latest in character songs with the dancing.
The auto chemical will arrive from Boston today.
